

Media Release

Bern-Gümligen, 29.08.2022

New Head of Retail & Site Management, Switzerland

From September 2022, Bexhet Aliu will take over responsibility for our Retail & Site Management service line. Mr Aliu has already worked in PRIVERA's Property Management division for several years and subsequently acquired in-depth experience in retail & site management with a well-known property owner.

PRIVERA's Retail & Site Management service line for the entirety of Switzerland will be managed by Bexhet Aliu from 01.09.2022. Mr Aliu is a real estate broker and has already worked as part of the PRIVERA Team from March 2016 until December 2020. He started his career as a residential property manager and then switched to commercial properties. His most recent position at PRIVERA was as a Property Management team leader where he was able to familiarise himself with the company and its clients. During the last two years, Mr Aliu has focused on retail and site management for a well-known property owner, during which time he developed a great deal of expertise and built networks in the sector.

The new appointment for the Head of the Retail & Site Management service line stems from a reorganisation of the division.

"Being able to appoint a former employee in Bexhet Aliu to the position of Head of Retail & Site Management is a great asset for PRIVERA. The service line will be in good hands thanks to Mr Aliu's extensive knowledge of this field," asserts Andrea Jürg Wegmüller, COO of PRIVERA.
